Re. Our NEW Cluster Numeracy Website – supporting your child's learning in mathematics

Dear Parents and Carers,

We are delighted to announce the launch of our brand-new Cluster Numeracy Website, developed collaboratively by Abersychan School, Blaenavon Heritage VC Primary School, Cwmffrwdoer Primary School and Garnteg Primary School.

We know that supporting your child with maths homework can sometimes be challenging, particularly when modern classroom methods differ from how maths was taught in the past. To ensure consistency and confidence at every stage of your child's education, our teaching teams have joined forces to create a dedicated online learning portal for our entire school community.

What the Website Offers

The site hosts a growing library of short video tutorials created by the children who attend our schools. These videos provide step-by-step walkthroughs of the exact teaching methodologies used in our classrooms across Progression Steps 3 to 4, with development plans to extend into Progression Step 2 later this year. You can also see these methodologies in the comprehensive Numeracy Procedures documents that our teachers use when planning for cross-curricular numeracy in their lessons.

By establishing shared methods and mathematical vocabulary across both primary and secondary phases, we are ensuring a seamless transition and continuous progress as pupils move through school.

How to Access the Website

You can visit the new portal today by clicking one of these links:

Abersychan BHVC Cwmffrwdoer Garnteg

We encourage you to explore the website alongside your child. If you have any questions or feedback about the numeracy portal, please feel free to reach out to your school via the usual channels.

Thank you for your continued partnership and support in promoting strong numeracy skills across our community.

Yours faithfully,

Abersychan Numeracy Cluster Project
